## Competition Format and Rules

Formato e regole gara / Format et règlement des compétitions  
As of FRI 30 JAN 2026

### Olympic Competition Format

There are nine events in the short track speed skating programme at the Olympic Winter Games Milano Cortina 2026:

- Women: 500m, 1000m, 1500m, 3000m Relay
- Men: 500m, 1000m, 1500m, 5000m Relay
- Mixed team relay

The short track speed skating competition at the Olympic Winter Games must be run in an indoor ice arena measuring 60m long by 30m wide, in which a 111.12m oval track is laid out. The arena must be equipped with a fully moveable padding system. Four or six identical tracks are laid out adjacent to the standard track (displaced up to 0.7m if seven tracks are used or up to 1m if five tracks are used) to ensure that good ice conditions are always available. Each competitor will receive a helmet number assigned by the International Skating Union (ISU) for the entire season, including the Olympic Winter Games.

### Differences between the ISU World Short Track Speed Skating Championships and the Olympic Winter Games

The competition format is the same at ISU World Short Track Speed Skating Championships and the Olympic Winter Games. More skaters compete at the world championships, and so more rounds and races are required.

### Changes since the Olympic Winter Games Beijing 2022

None

### Sport Rules and Procedures

Each event is organised over several rounds. Each round of the competition consists of several races. The two best athletes from each race qualify for the next round. In addition, the best third time may qualify for the next round. In exceptional situations the referee can advance a skater or a team who did not finish first or second to the next round.

#### Individual events

- Each event is organised in several phases (rounds). Each round of the competition consists of several races.
- 500m and 1000m: the two best skaters from each race qualify for the next round (in heats and quarterfinals) or for final A (in semifinals, where skaters ranked three, four and five qualify to final B). In addition, the third placed skater(s) with the best time may qualify for the next round (depending on the number of races and the number of skaters in the race).
- 1500m: the three best skaters from each quarterfinal qualify for the semifinals. In addition, the three fourth placed skaters with the best time may qualify for the semifinals. In the semifinals, the two best skaters qualify for final A. In addition, the third placed skater with the best time may qualify to final A. The seven best placed of the remaining skaters qualify for final B.

#### Women' 3000m and men's 5000m relay events

- Each phase (semifinals and finals) consists of two races.
- The first- and second-placed teams from each race of the semifinals qualify for final A, and the third and fourth placed teams from each race of the semifinals qualify for final B.

## Competition Format and Rules

Formato e regole gara / Format et règlement des compétitions  
As of FRI 30 JAN 2026

### Mixed team relay

- The quarterfinals consist of three races. The semifinals and finals consists of two races.
- The two best teams from each quarterfinal qualify for the semifinals. In addition, the two third placed teams with the best times may qualify for the semifinals. The two best teams from each semifinal qualify for final A and the teams ranked three and four qualify for final B.
- Each race is 2000m long (18 laps). Each team consists of two female and two male skaters. The skaters must follow the specific order (female 1, female 2, male 1, male 2, female 1, female 2, male 1, male 2) with each skater skating two and a half laps on their first leg, and two laps on their second leg.
- Each team may use a maximum of six skaters over all rounds of the event (three female and three male).

### Tiebreak rules

#### For races

If two or more skaters/teams are tied in a race, all will receive the same rank. Times will be recorded in thousandths of a second.

#### For seeding

For seeding purposes, the intermediate event classification will break the ties.

#### For event classification

If two or more skaters/teams are tied in final A or final B, all will share the same rank.

All skaters/teams not reaching finals will be ranked according to the following criteria:

- Round reached
- Finish position within the respective round
- Finish position within the previous qualifying rounds
- Best time in any race
- If all of the above criteria are equal they will share the same rank

### World and Olympic Records

World and Olympic records will be updated during the competition. If the existing world record is broken or equalled in a round, this will become the world and Olympic record. During a round, records will be updated race by race for presentation on the scoreboards and TV. If an existing record is broken more than once on the same day, only the best time will be considered a record. World records are subject to approval by the ISU Council.

### Sanctions for infringements of the racing rules

#### Penalty

In the case of an infringement of the starting procedure or the racing rules, a penalty will be given by the ISU referee. The skater/relay team will be disqualified from the race in which the infringement occurred and will be excluded from participating in the next round of that distance. The skater/relay team will forfeit the result achieved in that race only; results achieved prior to that race will not be affected.

#### Yellow card

If an infringement of the racing rules is deemed by the ISU referee to be an unsafe, harmful or hazardous offence, a yellow card will be shown to the skater. The skater/relay team will be disqualified from the race in which the infringement occurred and excluded from participating in the next round of that distance. The skater/relay team will forfeit prior results achieved in all races over the distance and will be ranked last in the event classification.

## Competition Format and Rules

Formato e regole gara / Format et règlement des compétitions  
As of FRI 30 JAN 2026

Any skater who is shown a yellow card twice during the Olympic Winter Games will be treated as if they have been shown a red card. The skater will immediately be excluded from that distance, as well as the rest of the Games, and will be listed at the bottom of the event classification with no rank.

If a second yellow card is shown to a skater, a free text note will be used to explain this on results outputs.

Yellow cards given to a relay team do not impact skaters in the individual events, nor do yellow cards given to a skater in an individual event have any impact on the relay team.

### Red card

If an infringement of the racing rules that is deemed to be dangerous, or grossly negligent, or a violation of the ISU Code of Ethics takes place in the period between the appearance of a skater at the heat box in and leaving the heat box out after a race, the ISU referee will show the skater a red card. The skater will be disqualified from the event and not be ranked in the event classification. If a member of a relay team receives a red card during the relay race, the team will be disqualified and will not be ranked in the event classification. The results of other individual distances which have been concluded by the skater with a final prior to the red card are not affected.

The skater may also be referred to the ISU disciplinary commission, which may impose further sanctions.

A red card may also be shown to a skater for:

- Any action or behaviour, either on or off the ice during the event period (i.e. from the beginning to the end of an event as established by the ruling body of the event) which is considered by the referee as non-compliance with instructions of an official in charge.
- A violation of the ISU Code of Ethics.

The skater will be referred to the ISU disciplinary commission, who will determine the appropriate penalty. This may include disqualification from some or all events in the Olympic Winter Games, including those already completed.

A skater who accumulates two red cards within 12 months is automatically suspended from participation in all ISU events, the Olympic Winter Games, the Winter Youth Olympic Games and international competitions for at least two months or three applicable competitions, whichever is the longer period.

### **Disqualification rules**

The IOC and ISU may disqualify a skater or a team from the competition due to a positive doping test or other unsportsmanlike behaviour. If such a decision is taken, the results achieved by the disqualified skater/team will be annulled and the disqualified skater/team will not be allowed to continue the competition.

### **Protests/appeals**

In the short track speed skating competitions during the Olympic Winter Games, protests against the racing rules will not be accepted.
